**Wireless Liability & Lease Terms**

This contract between the undersigned (Customer) and Lakedale is for the leasing of equipment (Router) length of commitment term. The undersigned (Customer) agrees to lease the (Router) for a minimum period of one or two years, (length of time determined upon initial application), from the effective date (period of time when service is temporarily suspended, by mutual consent, are disregarded). The effective date is defined as the date that service is successfully activated at the Customer's designated location.

**Early Termination Fee:** Customer agrees to pay a termination fee upon removing service before the length of Router Lease Agreement has been fulfilled. The termination fee will be the length of time remaining on the Router Lease Agreement from the removal date to the end of agreement term as described above (see effective date).

Lease fees apply until Customer contacts Lakedale to remove the equipment and services. The terms of the lease agreement adhere to the standard agreements, rules, restrictions, and liabilities for basic services from Lakedale Communications. The provisioning of wireless encryption services may require access to customer computer or network equipment. I will indemnify, defend, and hold Lakedale harmless against any liability for special, indirect, or consequential damages arising from, or relating to, any services or facilities provided to me (regardless of whether such liability is claimed to exist on the basis of contract, negligence, or otherwise), including, but not limited to, lost profits or loss of business opportunity. Lease provisions, services, and protections are considered void and withdrawn if the device or software has been altered by anyone without the direct supervision or administration of a Lakedale technician or by a Lakedale technician. In the event lease provisions, services, and protections are considered void and withdrawn, additional fees to replace or repair the device will apply on a time-and-materials basis.

Services associated with the lease of a Wireless Router and Modem Combination provided by Lakedale Communications are limited to surge protection, wireless fidelity WPA encryption, technical support through the Lakedale Internet Help Desk, and equipment replacement when, at the sole discretion of Lakedale Communications, all other troubleshooting options have been exhausted. Shipping and additional time-and-materials charges may apply.

I understand and accept the terms of the lease.
