LAKEDALE COMMUNICATIONS

Extended Area Service Questions & Answers

What is Extended Area Service to the Metro Calling Area?

Extended Area Service to the Metro Calling Area gives you a larger local calling area. Lakedale has developed two Metro Calling Plans so you can choose the plan that best meets your calling needs.

Extended Area Service to the Metro Calling Area allows you to call the Minneapolis/St. Paul Metropolitan Calling Area without having to dial "1" plus area code plus the telephone number.

Calls beyond the Metro Calling Area communities and your existing local calling area will still be long distance calls and require "1" or "0" plus the area code and number to complete the call.

May I change my mind after I choose a calling plan?

Of course. You may change your plan anytime. However, you will be charged a standard service order charge to change plans.

Do I have to make a choice?

Yes. You must choose either the Metro Flat Rate Plan or the Metro Value Plan. If you have Local Measured Service, you are required to choose the Metro Value Plan.

What if I have multiple telephone lines at one location?

All telephone lines at a location are required to have the same Extended Area Service option.

Does Extended Area Service to the Metro Calling Area affect features such as Speed Calling, Call Waiting, Call Forwarding or Three-Way Calling?

No. For the most part, Extended Area Service to the Metro Calling Area does not affect your custom calling features.

Is there someone I can call if I have questions?

Lakedale's customer service representatives will be available at 675-3400, 658-4800, or 274-8201. They will be glad to discuss the Metro Flat Rate Plan and the Metro Value Plan with you and help you select the best option for your calling needs.

Will I be charged for calls made to the Minneapolis/St. Paul Metropolitan Calling Area?

Only if you select the Metro Value Plan. All calls within your expanded calling area will be priced at eight (8) cents per minute. If you select the Metro Flat Rate Plan, you will not be charged for calls made to the Minneapolis/St. Paul Metropolitan Calling Area.

When must you dial ten digits?

To make a **local phone call** between area codes you will need to dial ten-digits; the three-digit area code plus the seven-digit phone number. **(Do not dial a "1" or a "0" before the ten-digit local number.)** Calls placed with an area code only require the seven-digit phone number to be dialed.

Extended Area Service Options

Lakedale offers three Extended Area Service options. Please note the monthly fees listed below are for Extended Area Service and monthly local service only. They do not include charges for other optional services, taxes, Minnesota state fees, or the federal access line charge you already pay each month. You must choose one of the following:

OPTIONS	MONTHLY FEE
Metro Flat Rate Plan	Montrose \$19.19 Waverly \$19.19 Maple Lake \$16.09
Digital Access Line Service	\$12.50
This plan is for those customers who prefer one monthly charge for local telephone service without limiting the length of the conversation. When you subscribe to the Metro Flat Rate Plan, you will pay a flat monthly fee in addition to the monthly basic service rate of \$12.50. When you subscribe to this service, you may call any of the Metro Calling Area communities listed on the back of this brochure with no per-minute charge.	
Metro Value Plan	\$3.10 plus 8¢/minute
Digital Access Line Service	\$12.50
When you subscribe to the Metro Value Plan, you will pay \$3.10 in addition to the monthly basic service rate, plus 8 cents per minute for calls to any of the Metro Calling Area communities. Of course, you are not charged for calls with no answer or when the number is busy. You <u>do not</u> pay the per-minute charge for local calls.	
Metro Value Plan	\$3.10 plus 8¢/minute
Local Measured Service	\$9.04 plus 2¢/minute
When you subscribe to Local Measured Service, you are required to choose the Metro Value Plan. With this option, you pay a low fixed monthly charge plus per-minute charges for calls to the Metropolitan Calling Area or local calls.
